

PRECITEX PRODUCTS

TEXTURISING

PRECITEX APRON BELTS AND NIP ROLLER COTS FOR TEXTURISING.

PRECITEX offers texturizing apron belts and nip roller cots for high speed texturizing machines. They are made of superior grade polymer that has higher abrasion resistance.

SALIENT FEATURES:

Apron Belts:

The apron belts offer vibration free running at high speed upto 1200m/min.

They have very good tensile properties which prevent apron breakage due to high load while processing coarser filament yarn.

The outer layer has got special surface finish to ensure proper gripping and crimping at higher operating speeds.

Nip Roller Cots:

Offers high degree of wear resistance for longer durability.

Good gripping surface which avoids yarn slippage.

PRODUCT RECOMMENDATION:

APRON BELTS

QUALITY	COLOUR	RECOMMENDATION
SHS 2247/K	Orange outside and Bluish grey inside	For ARCT, Heberlein and Murata machines for speeds upto 1200 m/min.
HS 3300/K	Red outside and red inside	For high speed Barmag Texturising machines.

NIP ROLLER COTS

QUALITY	COLOUR	SHORE HARDNESS	RECOMMENDATION
SP 60	Red	63°	Recommended for Guidici, Scragg, Himson and ICBT machines.
SHS 70	Orange	73°	Recommended for high speed machines especially for coarser denier material.

PRECITEX texturising cots are available in springrip construction where no glue is required for mounting. It facilitates immediate grinding after mounting thus saving labour and time.
